

Forskningspublikationer innehållande alkohol, narkotika (inkl. läkemedel), tobak och spel vid Institutionen för folkhälsovetenskap

Samhällsvetenskaplig alkohol- och drogforskning är ett profilområde vid Institutionen för folkhälsovetenskap. Institutionen bildades 2018 genom en sammanslagning av de två tidigare fristående forskningsenheterna Centrum för socialvetenskaplig alkohol- och drogforskning (SoRAD) och Centrum för forskning i ojämlikhet i hälsa (CHESS). Förteckningen baseras på publikationer i DiVA (<https://su.diva-portal.org/>). Publikationer som enbart kontrollerar för alkohol, narkotika, rökning eller spel ingår inte. För mer information, se <https://www.su.se/publichealth/>.

Research publications on alcohol, illicit drugs and narcotic drugs, tobacco, and gambling at the Department of Public Health Sciences

Social science-related alcohol and other drug research is one of the profile research areas of the Department of Public Health Sciences. The department was established in 2018 by the merger of two previously independent research units the Centre for Social Research on Alcohol and Drugs (SoRAD) and the Centre for Health Equity Studies (CHESS). This publication list is extracted from DiVA (<https://su.diva-portal.org/>). Articles that merely adjust analyses for alcohol, illicit drugs, smoking or gambling are excluded. For more information, see <https://www.su.se/publichealth/english/>.
