

Experience the commitment®

## CGI Business Consulting is now looking for University graduates, who has the ability and commitment to become CGI Business Consultants

### About CGI

CGI is a leading and dynamic IT-technology and services company, employing 70,000 people across 40 countries (5,000 employees in Sweden). CGI provide business consulting, systems integration and outsourcing to clients around the World. CGI works closely with its customers to enabling change that increases their efficiency accelerates their growth and manage their business risks. CGI apply its deep industry knowledge, technical excellence and global delivery expertise to help customers building leadership positions within their selected markets. CGI Business Consulting is an integrated part of the CGI business model and work as the change enabler and IT designer for our clients.

We are now looking for up to 20 young professionals with distinctive University Exams, combined with a personal drive and determination for becoming Business Consultants within the Swedish part of CGI Business Consulting.

### We offer

CGI, being one of the biggest consulting and IT service companies in the World, can offer you a future business consulting career within the dynamic and global IT-sector. You will have the opportunity to train your interpersonal skill in becoming a trusted IT advisor, as a specific subject matter expert or in a broader advisory and business management role. Training will be continuous through your career and you will thus gain knowledge of both IT systems as well as consulting skills, while at the same time building up your professional network.

### Job Description

As a junior Business Consultant you will join consulting teams working for clients - mainly at the client's premises and thus with a high degree of client interaction. The specific job tasks will be broad, developing and challenging, everything from functional requirement gathering to support in preparing an altered IT strategy for a bigger client.

### Basic Requirements

- Degree in e.g. business and/or engineering field, preferable a Master's degree
- Maximum 2 years relevant work experience (e.g. business consulting experience) is preferable
- Strong interpersonal skills, an analytical mindset and solid client facing capabilities
- Proven ability to work independently and as a team member

- Fluent in Swedish and English (both verbally and in writing)
- Skilled in Microsoft Office suite of service
- Ability to travel, mainly regionally and nationally, but also, from time-to-time, internationally

To apply for this position, visit [www.cgi.se/jobb](http://www.cgi.se/jobb).

Primary placement will be in Stockholm, but Gothenburg or Malmö can work as well.

Planned starting date is set to Monday the 2<sup>nd</sup> of September 2013.

Please attach CV, Cover Letter and university grades no later than Sunday June 9<sup>th</sup>, 2013.

Applications will be reviewed continuously, so please submit your application as soon as possible

CV and Cover Letter are accepted in both English and Swedish.
