Sustainable Development Teaching

Ethical and Political Challenges

Edited by **Katrien Van Poeck, Leif Östman** and **Johan Öhman**

Series: Routledge Studies in Sustainability

The aim of this book is to support and inspire teachers to contribute to much-needed processes of sustainable development and to develop teaching practices and professional identities that allow them to cope with the specificity of sustainability issues and, in particular, with the teaching challenges related to the ethical and political dimension of environmental and sustainability education. This book will be essential reading for students of education, as well as teachers in compulsory and higher education and sustainability education researchers.
