

Kursrapport: GG8117, Ore geology 7.5 credits, HT17x

Answer Count: 1

1. Course Director

Course Director

Iain Pitcairn

2. Number of enrolled students

Number of enrolled students

17

3. Number of students who completed the course

Number of students who completed the course

16

4. Changes in the course since the last time it was given

Changes in the course since the last time it was given

Not much. A few refinements to the field trip in Cyprus.

5. Course strengths according to the students (summary based on quantitative results, as well as free text)

**Course strengths according to the students
(summary based on quantitative results, as well as free text)**

Field trip, course content, practical classes

6. Course weaknesses according to the students (summary based on quantitative results, as well as free text)

**Course weaknesses according to the students
(summary based on quantitative results, as well as free text)**

Faulty microscopes in the practical lab. Too little introduction to the practical classes so that it is clearer what the learning objectives are and how the practicals link with the lectures.

7. Conclusions and proposals for changes

Conclusions and proposals for changes

The microscopes will be serviced and fixed before the next class. I will also prepare small 10 minute lectures at the beginning of the practical classes to make clear to the students what the learning objectives are and work for better integration of the lecture and practical material.
