

Course report for Traineeship in Biology 2021 (BL8006 & BL8007)

Description of changes, and potential decisions already made to make such changes, since the course was last given.

Changes since last year are that we have now more strictly defined the difference between internship in biology and research internship (where there is now also an advanced course). The practical course in biology is now focused on practical places where biological knowledge is used in work where research is NOT the main activity.

The strengths of the course according to the students.

The opportunity to gain insight into how the work is carried out at a workplace outside the university, and very good for getting contacts for future job applications. Also developed to be able to apply their biological knowledge in a profession, and try out a professional practice.

The weaknesses of the course according to the students

In general, the course is well designed, it is possible that you should be able to have a reconciliation with the course instructor and other students in the middle of the course. (However, this is not possible as the students start at slightly different times). Help with finding internships is also requested.

The teachers' analysis of the implementation and results of the course.

Very good result for the students. The course has proven to be very good for the students as many get the opportunity to network and/or continue work in some form, and many students also point out the importance of trying to work at a workplace for their personal development.

Conclusions and suggestions for possible changes to the course and any decisions already made to develop the course.

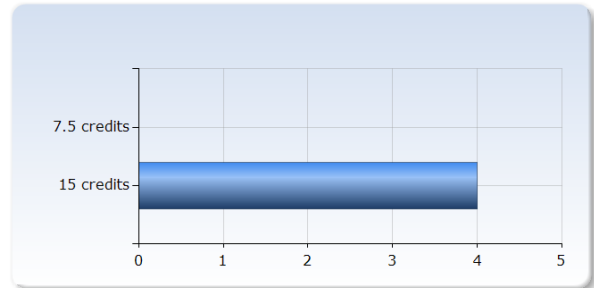

We will not help with finding internships as it is an important part of the course to learn how to find ways to do so. But you should be able to point out to future students that it is important to be out in good time, and to give yourself about 0.5-1 year to look for an internship to get a good place that suits the student's wishes.

BL8006 and BL8007 2021 Traineeship in Biology 7.5 and 15 credits

Respondents: 7
Answer Count: 4
Answer Frequency: 57.14%

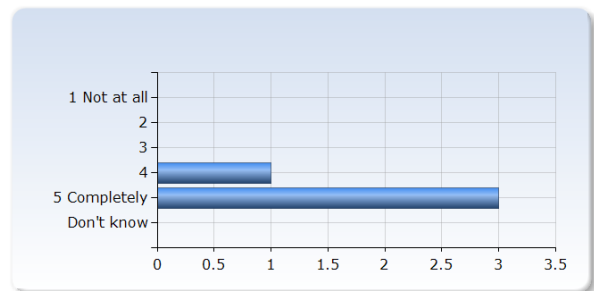

. Extent of the course: did you take the 7.5 credits course or the 15 credits course?

Extent of the course: did you take the 7.5 credits course or the 15 credits course?	Number of Responses
7.5 credits	0 (0.0%)
15 credits	4 (100.0%)
Total	4 (100.0%)

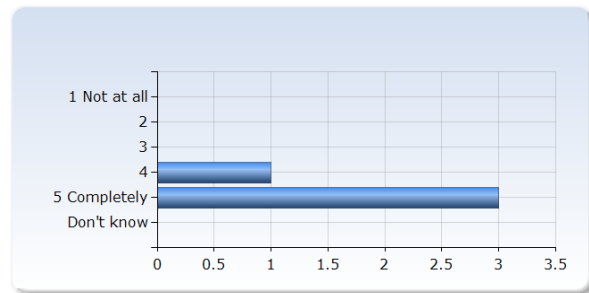

1. Overall impression

Overall I am satisfied with this course	Number of Responses
1 Not at all	0 (0.0%)
2	0 (0.0%)
3	0 (0.0%)
4	1 (25.0%)
5 Completely	3 (75.0%)
Don't know	0 (0.0%)
Total	4 (100.0%)

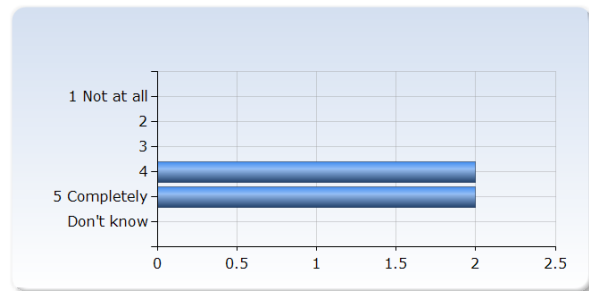

2. Course content

The content of the course was relevant to me for achieving the intended learning outcomes.	Number of Responses
1 Not at all	0 (0.0%)
2	0 (0.0%)
3	0 (0.0%)
4	1 (25.0%)
5 Completely	3 (75.0%)
Don't know	0 (0.0%)
Total	4 (100.0%)

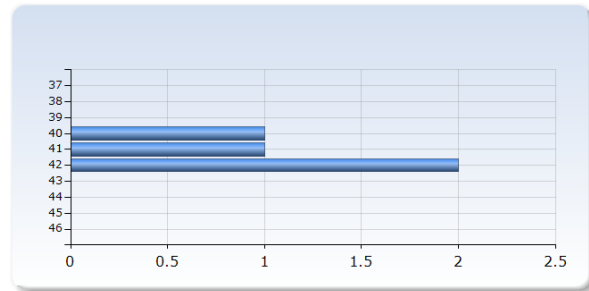

3. Examination/assessment

The examination/assessment tested how well I achieved the intended learning outcomes.	Number of Responses
1 Not at all	0 (0.0%)
2	0 (0.0%)
3	0 (0.0%)
4	2 (50.0%)
5 Completely	2 (50.0%)
Don't know	0 (0.0%)
Total	4 (100.0%)

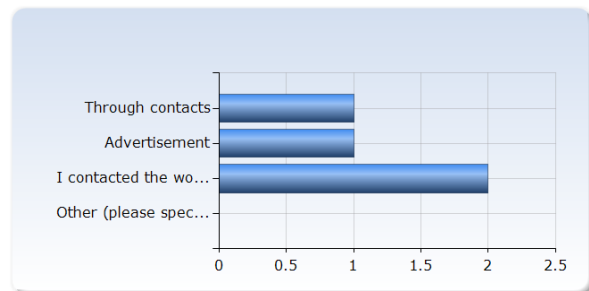

4. On average, I have spent approximately the following number of hours per week on the course, total time, including self-study.

On average, I have spent approximately the following number of hours per week on the course, total time, including self-study.	Number of Responses
37	0 (0.0%)
38	0 (0.0%)
39	0 (0.0%)
40	1 (25.0%)
41	1 (25.0%)
