

Kursplan

för forskarkurs

Communicating Science / Arrhenius Seminar at the Department of Organic Chemistry

1.0 Högskolepoäng

1.0 ECTS credits

Communicating Science / Arrhenius Seminar at the Department of Organic Chemistry

Kurskod: KO41004
Gäller från: VT 2020
Institution Institutionen för organisk kemi

Förkunskapskrav och andra villkor för tillträde till programmet

Admitted to the research education program (FoUtb) at Organic Chemistry

Lärandemål

After completing the course, the participants are expected to have an integrated understanding of the following:

- General principles for oral presentations
- How to do an interesting poster “pitch” that will attract poster visitors
- How to prepare an interesting poster
- How to discuss your research with people inside and outside your field of expertise
- How to discuss chemistry with poster presenters

Innehåll

The course is focused on oral presentations and poster presentations of chemistry research for PhD students. Discussions and presentations will be focused on the organization of oral presentations, and give general advice on how to convey a message.

Obligatoriska moment

Participation on the lectures, seminars and group discussions is compulsory. If special reasons exist, the examiner may, after consultation with the relevant teacher, grant the student exemption from the obligation to participate in certain compulsory elements.

Examinationsformer

Grading: Pass (G) or Fail (U)

To pass the course, you need to:

- Participate in all the scheduled lectures, seminars and group discussions
- Complete the compulsory assignments

Arbetsform

Lectures, seminars and group discussions

The course is given in English
