Universe: If R is living with a partner.

Literal question: Does your [husband/wife/partner/cohabiting partner] have children that are not yours? Include also those who do not live in your household Interviewer:
Do not include deceased step children.
Does [NAME] live in your household always, sometimes, or not at all?

⁶ The Swedish GGS interview asked about all step-children in the same sequence, and established residence in a follow-up question listed above. The public use file places each stepchild in the appropriate sequence of coresident or nonresident stepchildren. Thus, this section (variables a226 - a237) includes data only on stepchildren who do "not at all" live in the household.
