Description of changes since previous year: No significant changes made since the previous year.

The strengths of the course's according to the students

The students were satisfied with the comments and support they have received from their supervisor. A student emphasized how important it was that they could choose the topic of their thesis by themselves and another comment focused on the opportunity to dive deep in the chosen topic. The intermediate deadlines where students read drafts of assigned students has been also underlined as a strength. Both conducting critical analysis of fellow students' text and receiving peer comments seems to be an important part of the course each year.

The weaknesses of the course according to the students

One aspect which is lifted is that not all students provide the detailed and constructive comments that they are supposed to provide on the assigned thesis.
Teachers' comments

Providing detailed and constructive feedback on the assigned thesis will be emphasized as an obligatory element of the course.
