

Department of Molecular Biosciences,
The Wenner-Gren Institute

Participants: Isabella Badolati, Simon Prokisch, Vaishnovi Sekar (zoom),
Sergei Pirogov, Clàudia Arasa

Agenda for PhD Board meeting – scheduled 2023-06-12, 13:00-14:00,

F429

1. PhD Guide and meeting with Neus

Jessika might be there too. We wait to see what Neus says and we apply the changes.

2. BBQ Party on June, 20th funded by SUS

We will take the barbecue from the department and probably gathered by the deers. We will gather at 18h. We will order food through the department and maybe the pub can provide some drinks. Vaishnovi will do a poster for the barbecue, together with the council. Simon will order the food, paper plates etc.

3. MOSS

Next MOSS will be presented by the speakers – Vaishnovi will send the e-mail and present Milagrosa, and Milagrosa will present Vaishnovi.

4. PhD Council Meeting with Kristina Jonas

Kristina is available next week, she will join. We will discuss the meeting with Neus, and Kristina will introduce herself and her role. Maybe prepare some questions for her about credits?

5. Other matters

Keeping in mind that we should contact Nobel laureates as soon as they are announced in September, maybe organize an event around that if we manage to get them to give talks.
