Description of any changes since the last time the course was given

Since there is now a advanced course in research traineeship, we direct students that want to do a traineeship at a research institute to that course instead.

We have now a Athena web page for the course where students can find all information and also submit their reports and work plan.

Positive things about the course according to students (summary based on both quantitative data from evaluation and the students' text answers)

The flexibility of choosing where and when to do the traineeship,
The possibility to apply the biological knowledge at at work place outside the university

Things about the course that could be improved according to students (summary based on both quantitative data from evaluation and the students' text answers)

help with inspiration and suggestions on work places. A stronger alumni network and networking

Teachers' analysis of the course

Students are generally very satisfied with the course. The part to find a work place can for some students be hard. But is an important task for the student so solve independently. At the Athena pep page we now have some suggestions and examples of work places.
