

Department of Molecular Biosciences,
The Wenner-Gren Institute

Agenda for PhD Board meeting – scheduled 2024-03-27, 13:00-14:30, F504

Anaswara Sugathan, Isabella Badolati, Sergei Pirogov,
Max Louski, Simon Prokisch-Chalas

1. Bettering of supervision for PhD students

Ideas of how to improve supervision for PhD students were discussed. Better communication between a PhD student and their supervisor; mentioning expectations. PIs should really leave during ISP follow-ups at one point.

2. Teaching

Maybe it is necessary to decrease teaching tasks or to find courses that do not need the amount of PhD students assigned to them.

3. Summer party

The summer party will be on June 13th. It was decided that the PhD Board would help organizing it and look for volunteers. To facilitate the process a google document was created.

4. Event organized by the PhD Board

A google form for a better planning will be created. This event should be open for Bachelor and Master students and will be funded by SUS. It is planned to be organized for late May. Max will contact BIG for support and help. The idea is that people present their research in an entertaining way and that there is a jury to judge and determine winners.
