6. What was the best about the course?

What was the best about the course?

The teachers knowledge and passion for the subject made the lectures very enjoyable. The field trip covered a variety of formations/rocks/processes (and bunch of really cool rocks!) which I appreciated a lot.

7. What improvements would you suggest?

What improvements would you suggest?

The written exam was definitely different from the past exams we have had during the program; it was way more detail oriented (eg memorization of specific years and formation names etc) so majority of the course attendees weren't prepared in the right way. Example questions for future classes would be great to fix that.
